LETTER FROM SALLM

The first fruits of legislation this season were two local incorporation. It is which were passed by the lower house yesterday under a suspension of the roles. By the first of these rapidly growing city of The Dalles will have better fac lines for protecting the lives and property of her cit zens. The act incorpora standard of the samilar to the government's usually provided for small towns, a board of trustees recorder marsha treasurer and as seasor. The old charter of The Dalles was rep aled in toke and a new one smacted in its stead making ample provisions for the government of the large city which is soon to rise at that place. These bills have not been printed as no one but the people of the two places to the people of the two places respectively seened to be directly interested in them and they been, satisfied with them the legislature simply larve what was saked But when the bill to smean the charter of Porland against which there was no remon strance or protect but which ad been case fully prepared by the committee of the common of the members of the house from other counties were all at once see end in a desire to have the bill prioted and to cammine it with a wast deni of ears. Mr Peps of Polit if the moved to isoensider the motion by which the bill was ordered not printed but this motion was declared out of order, and then Lawrence of Bekar came to the front and made a direct notion to have the usual number of copies printed that he might as is full is consciented by an examination of its provinious His conscientious agraphes its erms out wasted out with bill, as the lither

Hendricks of Indiana, recently made what he considered an extremely impressive speech in denunciation of General Garfield for the part the latter took in Louisians in 1876 when the returning board gave that state to the Hayes electors. He tienounced Starffeld as a disgraced man, declaring him a sharer in the "infamy" by which Kelfors and the returning board sought to rob the white league racy of the victory which their cour age and daring in devilent butchery and mid the Louisiana election, was conducted, hold that the course of the Lunisians return board, even if it was as arbitrary and unusual as the democrate claim, was fully justified by us is very great Several of them have pub the outregeous frauds and bulldowing that vitiated the election in the rejected parishes. President Grant had requested several gantismen, representatives of the two parties interested, to go to the place where the dispute was going on and re-port for his information, and that of the parties to which they belonged the character and ments of the dispute and the progress of its settlement. Some six or eight of these gentlemen complied with the request and General Garfield was one of them. They were there primarily as spectators. We had long ago inten ed to notice a trans lation of Virgil s. And d in rhythmic prose by Capt. H. H. Pierce of the 21st infantry. U 8 A. but the volume was mislaid. Having now obtained another copy we are impressed even more than formerly with the book as a very remarkable per ormance. Plain proce translations are numerous enough and met rical versions like ise. > Figures which we printed yesterday show that our insane may be kent by the state in an insane savium of the first class coust to the best in other states, for a sum not exceeding \$200 a year for each patient. The state now paye \$260. The number in the saylum is about 300. If the state, by keeping them itself, can save \$60 each, the total would be \$18 000 a year We do not doubt that the present contractors clear profit is much above this sum. In a few years the saving to the state would pay for the erection of an eavium and better than all, an influence would be taken away from about our legislature which is present at every session and is the nucleus about which jobs of all kinds are any other measure than that of erecting an savino. If the contract system is t nue it may as well be in the hands of the present contractor as in those of any other person whatsover. The state doesn't want merely to change contractors—or masters What it should do is to break up a system

The Maine election, in spite of the early adverse reports, show that the republicans have fully held their nwn, and more.
